Brize Norton Control Zone (CTR/CTZ)

RAF Brize Norton is surrounded by an area of Class D airspace called a Control Zone or CTR. The Control Zone is shown and extends from ground level up to 3500ft on the RAF Brize Norton QNH. The RAF Brize Norton Control Zone is not to be confused with the Oxford Area of Intense Aerial Activity (Oxford AIAA) as transits through the Oxford AIAA can be made without entering the Brize Norton CTR. It is also important to note that RAF Brize Norton has a Control Zone and not a Military Air Traffic Zone (MATZ). Information for this map has been acquired by publically available material. The principle source being Air Traffic Control Squadron, RAF Brize Norton. The map is for reference only and should not be used for operational or planning purposes.

Disclaimer

The information within this map is based upon or drawn from various authoritative sources and whilst all reasonable care has been taken in the preparation of this map no warranties can be given as to its accuracy and/or no reliance should be placed upon the same without further detailed inspection and survey. The publishers cannot therefore accept any liability or responsibility for any loss or damage and indeed would be grateful to receive notification of any errors or inconsistencies. No reproduction whatsoever of this map or any part thereof is permitted without the prior consent of the copyright owners. Respect the land around the base, and do not trespass on or damage any property. Take your rubbish and litter home with you. Do not park in front of crash gates, or on the access tracks leading to them. You will almost certainly be asked move your vehicle as parking here can impede rapid access by the airfield crews to any emergency.
